

Table of Contents

Chapter 1: Water Resources Management

Mine Water Resource Utilization.....	3
<i>Wei Bo Sun, Yan Wang, Lang Liu, Lei Ming Zhang, Xin Wang and Yan Da Liu</i>	
Evaluation of Plain River Network Hydrologic Connectivity Based on Improved Graph Theory.....	8
<i>Yuqin Gao, Xuan Xiao, Mingming Ding, Yuqiang Tang and Hongyu Chen</i>	
The Evaluation of PPP Mode of Environmental Pollution Prevention and Control Based on the View of the Perspective of Sustainable Development.....	15
<i>Zhu Rong and Jiang Yalong</i>	
Summary Study on the Development of Water Assessment.....	21
<i>Sudi GAO and Rong ZHU</i>	
A Water Trading Model Based on the Construction of Water Bank with Considering Multiple Uncertain Information	25
<i>Xueting Zeng, Tienan Li, Shoujie Zhang, Zhenjiang Si, He Dong</i>	
Improvement on Entropy Weighting Model in Groundwater Quality Evaluation.....	31
<i>Yan Feng, Zhang Xinglei, Xiao Chengzhi, Tang Bei, Liu Chenglin</i>	
Environmental Risk Assessment of a Water Diversion Project for Improving the Water Quality of Chaohu Lake: A Case Study.....	39
<i>Xiaodong Liu, Lingqi Li, Zulin Hua, Siwei Peng, Dingyi Shen and Ting Yang</i>	
Safety Assessment of Urban Water Metabolism Based on PSR Framework—— Taking Tianjin City as an Example.....	45
<i>Jin Xu, Binke Li, and Zhihao Yu</i>	

Chapter 2: Environmental and Chemical Engineering

Preliminary Study on Dimensionless Expression of Bacterial Chemotaxis in Simulated Contaminated System.....	55
<i>Xiaopu Wang, Beibei Gao, Shuaiwei Gu, Wei Zhong, Kenneth S. Kihale, Roseanne M. Ford</i>	
Enhanced Coagulation for the Different Mixture Ratio Raw Water of Yellow River Water and South-to-North Water Diversion Water.....	60

Jianhong Lu, Jin Zhang and Feng Yin

Water Quality Control Technology of Sewage Treatment in Nanpu Oilfield.....	65
<i>Guangbo Ma, Guohua Luan, Haoyang Li and Mingjie Shi</i>	
Applications of Biological Magnetic Effects in Water Treatment.....	70
<i>Li Tianhang, Jia Xinqiang, Wang Xiaoyu, Yu Cong and Wang Jiabin</i>	
Biodegradation and Decolorization of Dye Wastewater: A Review.....	75
<i>Yingying Gao, Bo Yang, Qing Wang</i>	
Process Parameters Optimization of Multilevel Bio-Contact Oxidation System Treating Automobile Painting Wastewater.....	80
<i>Y F Zhu, T Zhu, M Groetzbach, Y G Ma and B Ma</i>	
Experiments on Microalgae Mud Adsorbing Heavy Metal Pb(II) Ions and Study on its Thermodynamics.....	87
<i>Binhui Jiang, Guangtai Zheng, Jiaqi Zhang, Shuqi Yang</i>	
The New Developments Made in the Autotrophic and Heterotrophic Ammonia Oxidation.....	92
<i>Mei Wang, Yurui Wu, Jiachao Zhu, Chenyi Wang, Yanbin Zhu, Qing Tian</i>	
Experimental Study on the Integrated Performance of Dust Removal and Water Vapour Recovery in Catalytic Cracking Gas.....	97
<i>LIU An-Lin, PENG Ly, ZHANG Yan-Hong, MA Liang and HE Meng-Ya</i>	
Preparation and Performance Analysis of Lignocellulose Water Retention Agent and Combination with Coal Gangue Ceramsite.....	102
<i>Xiaoyu Fang, Shengjie Fu and Yonggang Li</i>	
Study on the Preparation of Corn Starch Salt-resistant Water Retention Agent and Properties of Retention Agent Combined with Coal Gangue Pottery.....	109
<i>Shengjie Fu, Xiaoyu Fang and Yonggang Li</i>	
Theoretical Structural Stability of Small Molecules Water.....	116
<i>Pei Jiang , Qingshan Li, Jiajie Lu</i>	
Factors for Promoting Polyhydroxyalkanoate (PHA) Synthesis in Bio-Nutrient-Removal and Recovery System.....	121

Jiachao Zhu, Qing Tian, Yanbin Zhu, Jianpeng Yang, Mei Wang

Treatment of Chemical Wastewater by O₃-BAC Method.....125
Le Luo

Chapter 3: Remote Sensing and Environment

Ecological Livability Evaluation Based on Remote Sensing Technology - A
Case Study of Shijiazhuang.....133
An Hongfei and Zhao Shuqin

The Establish of Liaohe Estuarine Wetland Ecological Compensation Standard
Based on Muti-Source Remote Sensing Data.....138
QIAN CHENG, TIE-LIANG WANG, LIN-FEI ZHOU

Chapter 4: Environment and Climate Management

Synergistic Emission Reduction of SO₂ and CO₂ Based on Clean Energy
Replacement in ports.....145
Zhu Li and Qin Cuihong

Research on Influence of Beijing-VI Diesel on Consumption and Emission
Characteristics of Euro VI Diesel
Bus..... 152
Chen lin, Wang Zhong, Qu lei, Liu Shuai

Analysis of Development of Hazardous Waste Disposal Technology in
China.....160
Meitong Li, Jin Xu and Binke Li

Present Situation and Evaluation of Contaminated Soil Disposal
Technique.....167
XU Jin, CHEN Xing and LI Meitong

Present Situation and Evaluation of Contaminated Soil Disposal
Technique.....171
Xu Jin, Chen Xing, and Zhong Wei

Human Alteration of the Nitrogen Cycle and Its Impact on the
Environment.....175
Jianing Hu

Survey on the Effects of Frequency of Experiencing Water Environments on Moods in China.....180
C C Peng, M Rooks and Y Hu

Maximum and Minimum Temperature in Naiman County, China.....188
Shuxia Yao and Chuancheng Zhao

The Status of Existing Building Materials in Thailand to Cope with Future Climate: Wall Component.....194
Patcharawan Bootkaew and Nachawit Tikul

Spatio-Temporal Variation Characteristics of Vegetation Coverage and Its Correlation with Climate Factors in Henan Province from 2006 to 2015.....199
Dandan Zhang, Zhihui Tian, Xiaohui He, Hengliang Guo, Haitao Wei

Chapter 5: Resources and Environmental Economics

Analysis of Land Use Efficiency in Provincial-Level Development Zones—Case Study of Wanjiang City Belt, China.....207
R H He, R Wang, Y N Ren, C Che and J He

Analysis on Updated Results of Benchmark Land Price in Small Towns — A Case Study of Downtown in Xichong County, Nanchong City..... 216
Fachao Qin, Zhen Xu and Ting Jiang

Analysis on Industrial Land Efficiency in Sichuan Province from the Perspective of Sustainable Development.....222
Xu Mingqiang and Wei Wei

Income and Conservation Dynamics of the Biological Bee-Fence: A bio-Economic Simulation.....229
A Taruvinga and N Gumpo

Mount Sinabung Eruption: Impact on Local Economy and Smallholder Farming in KaroRegency, North Sumatra.....237
JongkersTampubolon, HLNainggolan, AGinting and JAritionang

The Statistics of Recyclable Resources in Beijing: Satus, Problems and Countermeasures.....243
Tingting Liu, Yufeng Wu, Xi Tian, Yu Gong and Yanmei Li

Research on Feasibility and Development Path of Ecological Poverty
Alleviation of Yi Nationality in Luquan, Yunnan.....251
Ying Zhao

Chapter 6: Urban and Agricultural Engineering

Research on the Method of Emission Trading in Harbin.....261
A Long Yang , Chong Du and Guang Bo Ma

Exploring the Response of Combined Urban Sewer System to the
Implementation of Green Roof.....266
Yuqin Gao, Dongdong Wang, A Schmidt and Yun Tang

Study on Division of Landscape Character Areas of River Corridor in Northwest
Arid Area Based on LCA Method—— Take Zhangye Section in Heihe River
Basin as an Example.....273
Yanli Tao, Xuesong Xi, Yabei Xin, Fangxin Liu, Bingbing Zhang

Effects of Shallow-deep Drainage Ditch on Soil Chemical Properties and Soil
Enzyme Activities in Sanhu Farm.....284
Wenchao Zhang, Fahu Li, Jianqiang Zhu and Xinguo Zhou

Evaluation of Land Ecological Security in Liaoning Province based on
Grid295
Hongfei An and Shuqin Zhao

Analysis of Population Genetic Diversity of *CynoglossusSemilaevis* in Three
Groups from Northern China Sea.....302
ZHANG Bo, LIU KeFeng, ZHENG DeBin, JIA Lei

Author Index.....309
